Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. John Kilyk, Jr. on December 1, 2004.

The application has been amended as follows:

- Claim 1, line 4: before "glossy coating", the word "uncalendered" was inserted;
 - Claim 1, line 4: after "or more", the following phrase was inserted: ", and the glossy coating has a total mercury intrusion volume of about 0.3 ml/g or more";
- Claim 47 was cancelled; and
- Claim 48, line 1: the dependency was changed from "claim 47" to "claim 1".

Reasons for Allowance

3. The present claims are deemed allowable over the references of record as exemplified by Nagamine et al. since the references of record fail to disclose or render obvious the improvement in the uncalendered specular gloss in combination with the improved void volume/porosity as measured by the mercury intrusion volume.

While the prior art of record disclose ink jet recording medium comprising glossy coatings on a substrate, wherein the glossy coating can comprise alumina particles made by a variety of methods and possessing a surface area of 30 – 80 m²/g, the prior art of record fails to teach or render obvious the unexpected improvement in both the uncalendered 75° specular gloss reported by applicants (*examples 1 – 6 and Tables 1 – 4*) as well as the intrinsic void volume possessed by the structure of fumed alumina particles versus non-fumed alumina particles, as measured by a mercury intrusion volume method (*applicants' specification, pages 6, 13 and 14 and Tables 1, 3 and 4; and Declaration of Mr. Michael D. Morris*).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on (571) 272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
